

- The Harvest 2019 is over ! -

Harvest is over. No more disco music in the cellar (yes, the interns were fond of disco !), the winemaker has washed the purple off his hands and the juices are now sleeping in oak barrels two floors below us. Now... let's time do its magic, with a little bit of human help.

To learn more about winemaking, book a cellar tour at taste@mariannevinefarm.co.za

Marianne partner of the French Navy task force " La Jeanne "

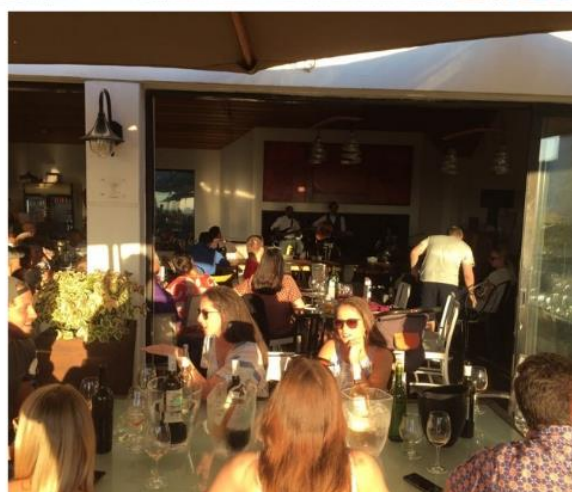

The French task force “Jeanne d’Arc” 2019, a five-month operational deployment of a two-vessel amphibious battle group, arrived in Cape Town on the morning of 12nd of April.

Marianne's wines were served on the ship for their welcoming cocktail.

The annual “Jeanne d’Arc” mission is a French Navy (Marine Nationale) joint and allied operational deployment focused on on-the-job training for Naval College (École Navale) cadet officers and international cooperation, allowing young midshipmen to get on-the-job training at sea, thus learning the complexity of missions and operational theatres.
